PROFESSIONAL EXPERIENCE

Artificial Intelligence Developer Intern, BusyBees
Babysitting
Tempe

Jan 2026 to Present

- Designed and implemented end-to-end AI solutions for healthcare and enterprise analytics, spanning data acquisition, NLP, machine learning, deep learning, and generative AI to deliver production-grade services.
- Engineered secure, reproducible data pipelines for structured and unstructured sources (relational databases, OCR, text corpora), ensuring data integrity, compliance, and robust model validation.
- Led cross-functional team of 4 delivering end-to-end ML pipeline, agentic AI workflows, and executive business case addressing 94% annual churn rate impacting \$6.4M in revenue.
- Implemented CI/CD pipelines for automated model retraining, performance monitoring, and production deployment, ensuring reliable inference and continuous improvements

Financial Systems Data Analyst, Arizona State University
Tempe

Aug 2024 to Present

- Analyzed and resolved complex financial aid discrepancies for 80,000+ students by querying federal loan systems, scholarship databases, and grant tracking platforms.
- Documented issue patterns and technical solutions to build internal knowledge base; partnered with financial systems teams to validate data pipelines, ensuring data integrity and compliance with federal requirements.
- Evaluated financial aid package optimization strategies; translated complex regulatory requirements and financial data into actionable guidance for students and parents through clear communication.

DevOps Marketing Intern, Algorand Foundation
Remote

May 2023 to Aug 2023

- Analyzed multi-channel campaign data using Python (pandas, matplotlib) to segment audiences by engagement metrics; identified high-performing segments that informed \$100K+ ad spend allocation
- Automated weekly analytics pipeline using Python scripts to aggregate data from Google Analytics, social platforms, and CRM; reduced manual reporting time by 50%
- Conducted A/B testing analysis using statistical hypothesis testing to evaluate creative variants; presented data-driven recommendations to marketing leadership.
